- Monitor and maintain Local Area Network (LAN) and internet connectivity across departments.
- Participate in automation and digital transformation projects aimed at improving operational efficiency.
- Prepare technical reports, user manuals, ICT documentation, and system support records.
- Collaborate with cross-functional teams to ensure effective delivery of ICT services.

ICT Trainer / Lecturer

September 2024 – January 2026

Maasai National Polytechnic

- Delivered competency-based training in programming languages including Java, C, and C++.
- Developed lesson plans, schemes of work, training materials, and assessment tools.
- Facilitated practical sessions in software development, web technologies, and internet applications.
- Invigilated national examinations and ensured compliance with examination regulations.
- Mentored students on software development projects and technical problem-solving.

- Enhanced student understanding of emerging ICT concepts and technologies.

ICT Tutor

May 2024 – August 2024

Maa Institute of Professional Studies

- Trained students in computer applications, operating systems, internet technologies, and digital literacy.
- Delivered instruction on programming concepts and software applications.
- Designed and implemented lesson plans tailored to diverse learner needs.
- Promoted ethical and secure use of digital technologies.
- Guided learners at artisan, certificate, and diploma levels in acquiring practical ICT skills.

ICT Attaché

May 2022 – July 2022

National Hospital Insurance Fund (NHIF) – Kajiado Branch

Industrial Attachment Experience

- Supported day-to-day administrative and ICT-related operations.
- Performed data entry, document preparation, records management, and file organization.
- Assisted in maintaining accurate records in compliance with organizational procedures.
- Collaborated with staff to improve workflow efficiency and service delivery.
- Maintained confidentiality and accuracy when handling sensitive information.
- Participated in departmental training sessions and operational meetings.

TECHNICAL SKILLS

Software Development: Java, Python, C, JavaScript

ICT Infrastructure: Hardware Installation, System Maintenance, LAN Administration, Network Troubleshooting

Database Management: Data Entry, Data Validation, Records Digitization, Database Updates

Digital Transformation: Process Automation, ICT Documentation, Systems Support

Professional Skills: Leadership, Communication, Teamwork, Problem Solving, Project Coordination

Data & Analytics: SQL, Power BI, Tableau, Microsoft Excel, Data Visualization

Networking & Systems: LAN Administration, Network Troubleshooting, Hardware Maintenance, Software Installation, System Configuration

CERTIFICATIONS

Data Entry Certification – Ajira Digital Program

Data Analysis Certification: Python, SQL, Tableau, Power BI, Microsoft Excel

LEADERSHIP EXPERIENCE

Cabinet Secretary – Clubs and Societies, Olkejuado High School | 2017 – 2018. Coordinated activities of student clubs and societies; represented student interests in leadership forums; awarded Certificate of Distinguished Leadership.
